# PRISMJET™

## 230 Ultra Vinyl

PrismJET 230 Ultra is a highly conformable, premium 2.4mil ultra-calendered gloss white vinyl for digital inkjet printing. It comes with a grey permanent acrylic adhesive on a 90# air egress liner. This film is designed to accept a variety of solvent-based inkjet and UV curable inks common to wide format digital printing systems. The grey permanent adhesive offers excellent opacity and exceptional repositionable qualities.

230 Ultra is suitable for vehicle wraps and conforms over rivets and corrugations on flat surfaces and simple curves. The liner's layflat and air egress properties provide for easy bubble free installation on vehicle wraps, fleet graphics and large format signage. PrismJET 230 Ultra offers all these features at prices up to 55% less than premium brand cast vinyls.
